

Drop wire clamp, ODWAC-P

Product information:

Drop wire clamp ODWAC-P, used with FTTH drop cable flat configuration. FTTH clamp designed to support the FTTH cable on intermediate and down lead routes, during FTTH network deployment.

Key features:

1. Full dielectric materials
2. UV resistant thermoplastic, guarantee a long-term durability
3. Wedge self-tension configuration
4. Competitive price compared to analogs

Application area:

1. Aerial fiber optic cable deployment, FTTx.

Technical specification:

Product code	Flat cable sizes (h*w), mm	MBL, kN
ODWAC-P	2-5 /3-11	0.2
